If Customer notifies Graylog of a problem and Graylog determines that the problem is due to Customer’s incorrect or improper use of the Software or failure to comply with the terms of these Terms (as opposed to a defect in the Software), Graylog may enter into a mutually agreed work order for Graylog to correct the problem, under which Customer would pay Graylog its then current time and materials rate for all services provided and all expenses associated with performance of those services, whether or not the problem is corrected. Graylog shall have no responsibility for loss of or damage to Customer’s data, regardless of the cause of any such loss or damage. Customer shall take all necessary steps to back up its data.
